# STEM Ambassadors

Joining a scheme

A scheme is a way to link your STEM Ambassador profile to a particular area of interest or sector. Once linked to a scheme, you may hear from your Delivery Partner or the scheme organiser about activities and events that align with the scheme. Some schemes also provide extra training sessions, resources and support to help with your volunteering. You can find out more about the different schemes here.

To join a scheme, you will need to follow the steps below:

Once you are logged in to the STEM Ambassadors platform, go to the menu bar on the left-hand side and click 'Profile'

From here, you will need to click 'Edit profile' and go to the 'Employment and Schemes' tab.

Use the drop down under 'Scheme participation' to choose the scheme/s that you would like to be a part of.

Tick the box if you are happy for us to share your STEM Ambassador volunteer work and contact details with the scheme organisers. They will then be able to get in touch with you about activities and any extra training sessions or resources they provide.

Make sure to always click 'Save' in the top right corner when you make changes to your profile.
