

## STEM Ambassadors

### Posting an activity you'd like to offer

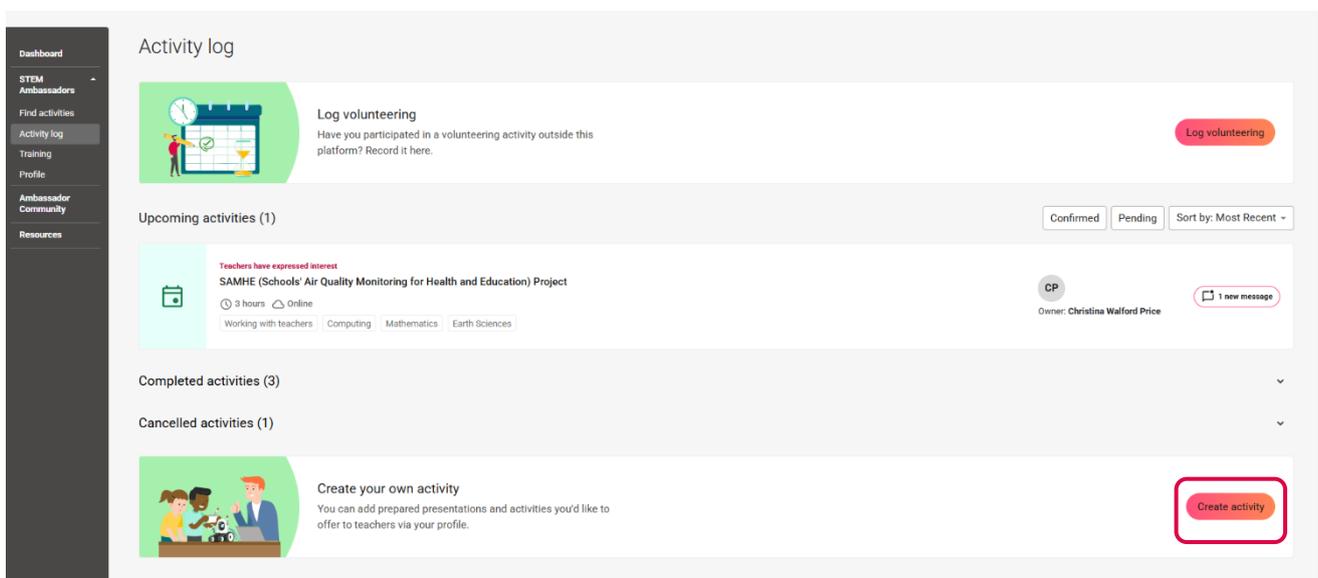

STEM Ambassadors can offer activities for teachers or youth group leaders to browse and request. These activities could be anything from a This is Me presentation for 14-year-olds, to a hands-on activity for 7-year-olds.

There are lots of ideas out there and we run regular training sessions to support you in developing your activity. You can find out more and register via the STEM Ambassadors platform.

Once you are logged in to the STEM Ambassadors platform, go to the menu bar on the left hand side and click 'Activity log'

Here you can see any upcoming, completed or cancelled activities. You can add your activity you'd like to offer by clicking 'Create activity'

From here, you will need to fill in the required information about your activity.

### Create a new activity

Create an activity to offer to educators

---

About the activity

Activity type \*

Select option

Activity name \*

Enter text

Tell us about your activity \*

Add activity details

**Tip**

Please describe your activity and the types of things you do with the people participating

What area of expertise or interests are relevant to this offer? \*

3-D Printing +    Apprenticeship / Ex-Apprentice +    Architecture +    Arts +    Astronomy +

Make sure you use a good, clear title, as this is the first thing that will be seen when teachers or youth group leaders are browsing. It is also important to add a good description of what your activity involves.

If you would like more assistance on this, do attend one of our regular support sessions.

Where will the activity take place?

Activity location \*

Online     In Person     Both

Please enter the URL where this activity will take place if known

URL

This URL is where the Ambassador will go to join the activity. If you don't know it right now, you will be reminded before the activity to fill it in.

This will only be shown to confirmed ambassadors.

About the audience

Age of participants \*

14-16 years +    16-19 years +    11-14 years +    7-9 years +

Maximum number of participants \*

0

Duration

Total duration of the activity? (hours) \*

0

This duration reflects the actual time the activity was running and does not include any preparation time. Please round your time to the nearest hour.

You can choose whether your activity is online, in person, or both. If you choose in person, you will be asked to put a location in.

This specific location will not be shown to those browsing your activity – it will be used to show the activity to those local to you.

You will be able to see a small preview of your activity. Click 'Create new activity' to post it.

**STEM Club activities for primary schools**

📅 Run a STEM Club ⌚ 1 hours 📍 in person

Astronomy | Physics | 7-9 years

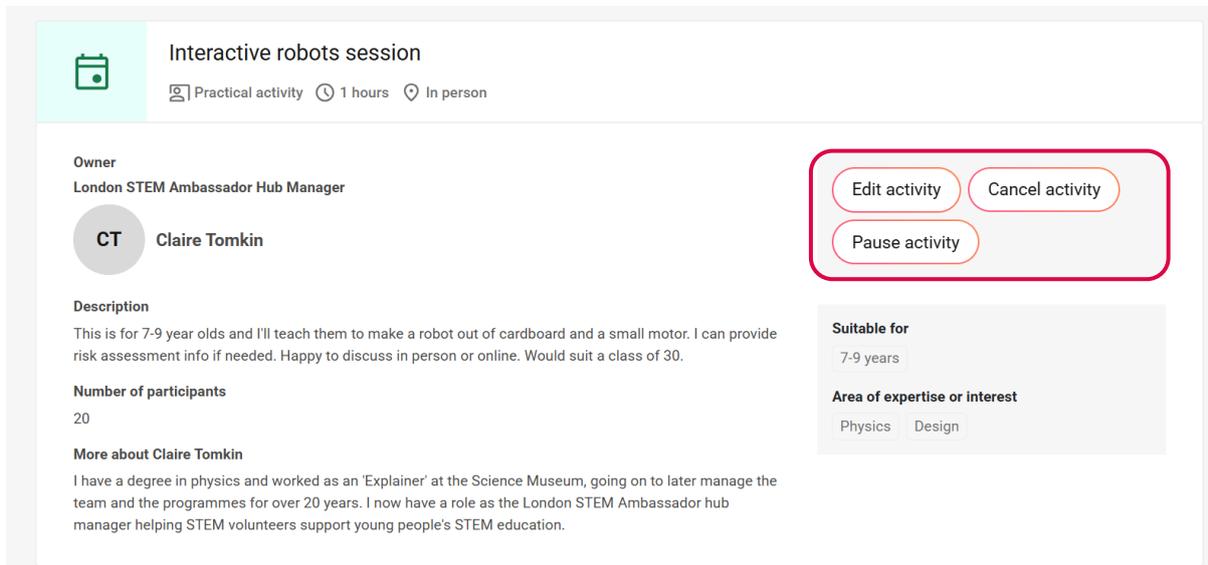

Create new activity

This activity will now be advertised to teachers and youth group leaders, alongside your public profile details, like your biography and employment details.

It will stay on your profile until you cancel or pause the activity.

Please check all the details are correct. If you need to update your activity, you can by using the 'Edit activity' button.

**Interactive robots session**  
 Practical activity | 1 hours | In person

**Owner**  
 London STEM Ambassador Hub Manager

**CT** Claire Tomkin

**Description**  
 This is for 7-9 year olds and I'll teach them to make a robot out of cardboard and a small motor. I can provide risk assessment info if needed. Happy to discuss in person or online. Would suit a class of 30.

**Number of participants**  
 20

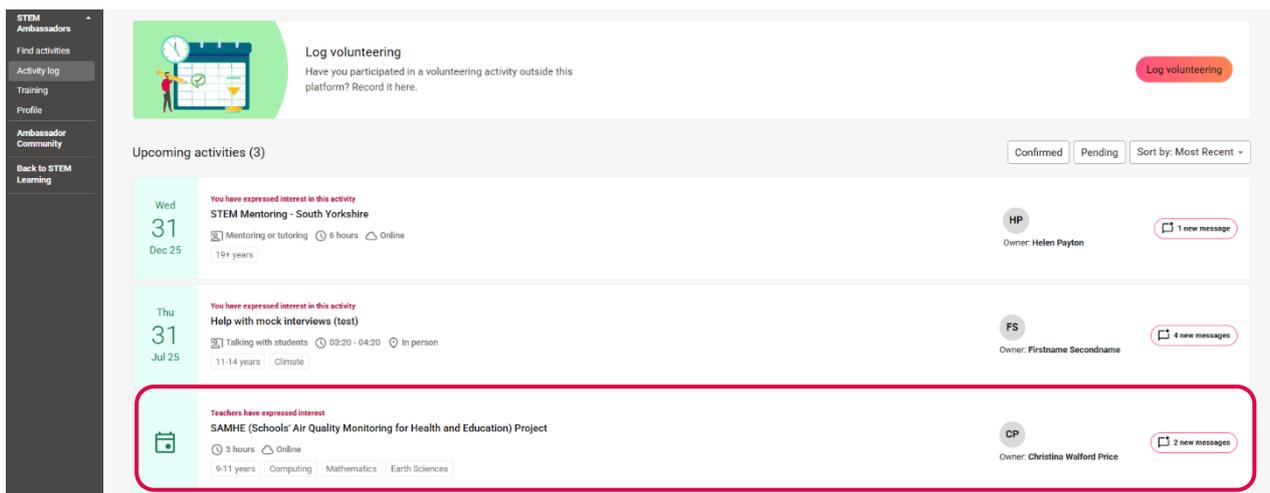

**More about Claire Tomkin**  
 I have a degree in physics and worked as an 'Explainer' at the Science Museum, going on to later manage the team and the programmes for over 20 years. I now have a role as the London STEM Ambassador hub manager helping STEM volunteers support young people's STEM education.

**Suitable for**  
 7-9 years

**Area of expertise or interest**  
 Physics | Design

**Buttons:** Edit activity, Cancel activity, Pause activity

Teachers and youth group leaders will be able to express interest and send you messages via the activity page. You can easily see if any new messages have been sent on your activity log:

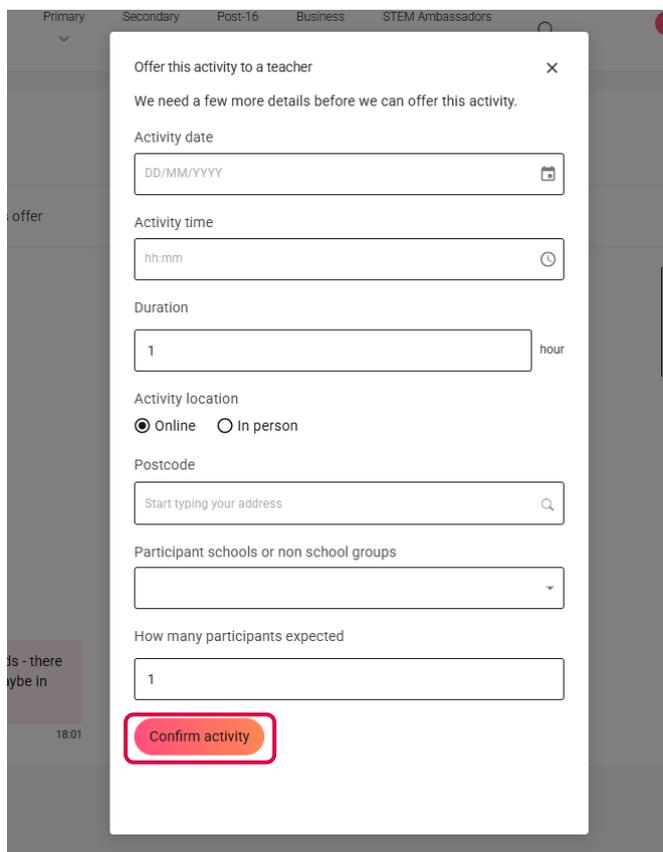

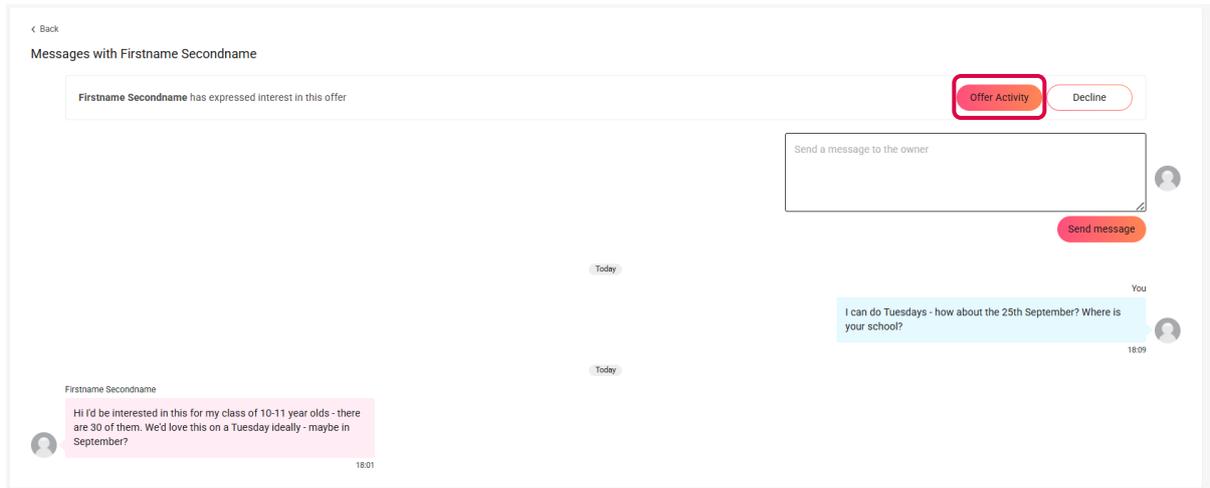

**Log volunteering**  
 Have you participated in a volunteering activity outside this platform? Record it here. [Log volunteering](#)

**Upcoming activities (3)** | Confirmed | Pending | Sort by: Most Recent

- Wed 31 Dec 25**  
 You have expressed interest in this activity  
**STEM Mentoring - South Yorkshire**  
 Mentoring or tutoring | 6 hours | Online | 19+ years  
 Owner: Helen Payton | 1 new message
- Thu 31 Jul 25**  
 You have expressed interest in this activity  
**Help with mock interviews (test)**  
 Talking with students | 03:20 - 04:20 | In person | 11-14 years | Climate  
 Owner: Firstname Surname | 4 new messages
- Teachers have expressed interest**  
**SAMHE (Schools' Air Quality Monitoring for Health and Education) Project**  
 3 hours | Online | 9-11 years | Computing | Mathematics | Earth Sciences  
 Owner: Christina Walford Price | 2 new messages

Once you have discussed further details and agreed to deliver the session, you will need to offer the teacher the activity.

Once you have clicked 'Offer Activity' you will see the following pop-up. Fill out the details and click confirm activity.

This activity now appears under your upcoming activities in your activity log:
