

STEM Ambassadors

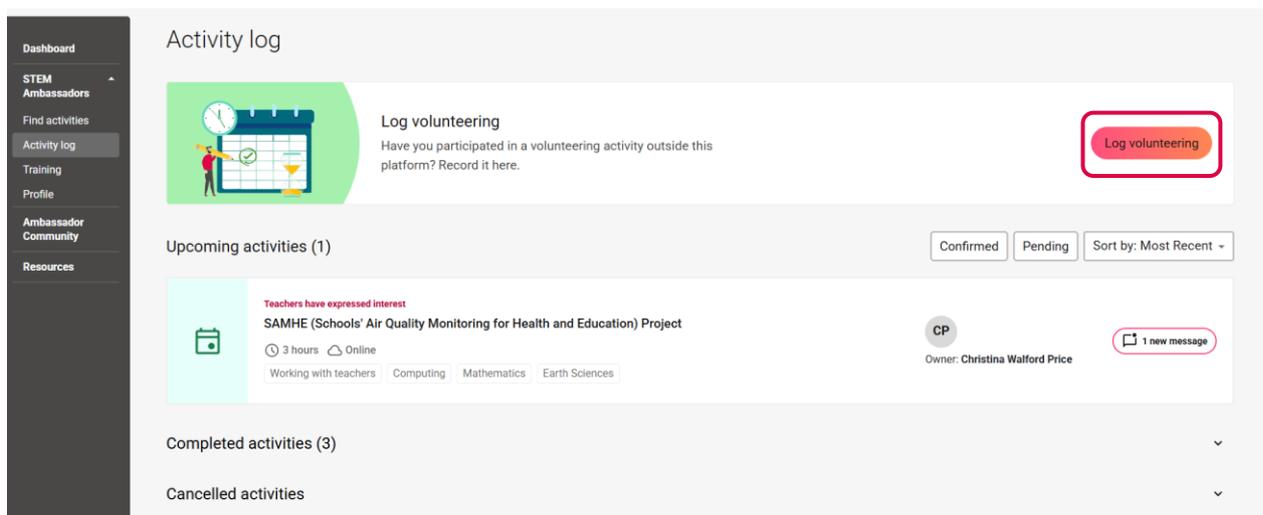

Self-reporting your volunteering

You can self-report any volunteering opportunities you have found outside the platform on your STEM Ambassadors account. This is great for keeping your impact up to date and letting us know about all the great volunteering you are carrying out!

Once you are logged in to the STEM Ambassador platform, go to the menu bar on the left-hand side and click 'Activity log'

From here, you can log a volunteering activity you have participated in outside of the platform, as well as view any of your upcoming or completed activities:

To log your volunteering, fill out the required details on the next page:
